

# PROTECTION FOR YOU AND YOUR FAMILY

**Revilo Life and Towergate are working together to provide a range of insurance policies that recognise everyone is different. From specialist travel insurance and carers life insurance to home insurance that covers vital mobility equipment and your home adaptations.**

## **Home Insurance that is anything but standard**

As well as what you would expect from standard home insurance, such as loss or damage to buildings and/or contents, replacement door locks in the case of stolen or lost keys and accidental damage to audio, video or computer equipment, we will also cover the following at no extra cost to you:

- Canes, walkers, scooters, manual wheelchairs, ramps, hoists
- Stair lifts, through floor lifts, bathing equipment
- Oxygen equipment used in the home
- The cost of takeaway food, taxi fares and grocery deliveries should any vital equipment be out of service

## **Keeping you comfortable**

We understand the stress that moving to temporary accommodation can cause you; from having to move to an unfamiliar place that isn't set up for your needs, to having to place your pets in alternative accommodation. To avoid this, we work with **The Temporary Kitchen and Bathroom company** to ensure that in the event of a large damage claim, you can stay in your own home.

Should you need to make a claim, our insurer Aviva, has experienced claims handlers that understand the importance of home adaptations.
